BIOMETRIKA

A JOURNAL FOR THE STATISTICAL STUDY OF BIOLOGICAL PROBLEMS

FOUNDED BY

W. F. R. WELDON, FRANCIS GALTON AND KARL PEARSON

EDITED BY

EGON S. PEARSON

IN CONSULTATION WITH

HARALD CRAMÉR — J. B. S. HALDANE

MAJOR GREENWOOD — G. M. MORANT

JOHN WISHART

VOLUME XXX

1938

ISSUED BY THE BIOMETRIKA OFFICE
UNIVERSITY COLLEGE, LONDON
AND PRINTED AT THE
UNIVERSITY PRESS, CAMBRIDGE

PRINTED IN GREAT BRITAIN

Science Lib.
Faxon

CONTENTS OF VOLUME XXX

Memoirs

		PAGES
I.	On Some Properties of Normal Distributions, Univariate and Bivariate, Based on Sums of Squares of Frequencies. By G. Udny Yule	1—10
II.	A Historical Note on Karl Pearson's Deduction of the Moments of the Binomial. By J. Neyman	11—15
III.	Growth-rate Determinations in Nutrition Studies with the Bacon Pig, and their Analysis. By John Wishart	16—28
IV.	Certain Statistical Problems Arising in Plant Breeding. By Y. Tang. With ten Figures in the Text	29—56
V.	Rural Mortality. Its Comparative Sex Incidence. By W. J. Martin and E. A. Cheeseman	57—64
VI.	A Piebald Family. By A. M. Nussey. With a Pedigree and one Plate	65—67
VII.	A New Method of Experimental Sampling illustrated on certain Non-Normal Populations. By G. B. Hey. With one Figure in the Text	68—80
VIII.	A New Measure of Rank Correlation. By M. G. Kendall	81—93
IX.	Indian Races in the United States. A Survey of previously published Cranial Measurements. By Gerhardt von Bonin and G. M. Morant. With two Figures in the Text	94—129
X.	A Description of Nine Human Skulls from Iran excavated by Sir Aurel Stein, K.C.I.E. By G. M. Morant. With three Plates	130—133
XI.	The Probability Integral Transformation for Testing Goodness of Fit and combining Independent Tests of Significance. By E. S. Pearson. With four Figures in the Text	134—148
XII.	On Tests for Homogeneity. By B. L. Welch	149—158

PAGES

XIII. Some Aspects of the Problem of Randomization
II. An Illustration of "Student's" Inquiry into the effect of "Balancing" in Agricultural Experiments. By E. S. PEARSON. With six Figures in the Text . . 159—179

XIV. A Generalization of Fisher's z Test. By D. N. LAWLEY . 180—187

XV. William Sealy Gosset, 1876–1937. With three Figures in the Text and three Plates
(1) "Student" as a Man. By L. McMULLEN . . . 205—210
(2) "Student" as Statistician. By E. S. PEARSON . . 210—250

XVI. The Distribution of Spearman's Coefficient of Rank Correlation in a Universe in which all Rankings Occur an Equal Number of Times. By M. G. KENDALL, SHEILA F. H. KENDALL and B. BABINGTON SMITH. With two Figures in the Text . . . . . 251—273

XVII. The Application of the Moment Function in the Study of Distribution Laws in Statistics. By U. S. NAIR . . 274—294

XVIII. Sampling Distribution and Selection in a Normal Population. By WALTER LEDERMANN . . . . . 295—304

XIX. The Cranial and other Skeletal Remains of Tasmanians in Collections in the Commonwealth of Australia. By J. WUNDERLY. With six Plates . . . . . 305—337

XX. Note on Dr J. Wunderly's survey of Tasmanian Crania. By G. M. MORANT . . . . . 338—340

XXI. Disease and Environment. By E. A. CHEESEMAN, W. J. MARTIN and W. T. RUSSELL. With one Figure in the Text 341—362

XXII. On Sentence-length as a Statistical Characteristic of Style in Prose: with Application to Two Cases of Disputed Authorship. By G. UDNY YULE . . . . . 363—390

XXIII. The Estimation of the Location and Scale Parameters of a Continuous Population of any Given Form. By E. J. G. PITMAN . . . . . 391—421

XXIV. Methods of Estimating the Population of Insects in a Field. By GEOFFREY BEALL. With three Figures in the Text . 422—439

XXV. The Comparative Advantages of Systematic and Randomized Arrangements in the Design of Agricultural and Biological Experiments. By F. YATES. With nine Figures in the Text . . . . . 440—466

Miscellanea

PAGES

(i) Applicability of the z Test to a Poisson Distribution. By R. A. CHAPMAN. With one Figure in the Text . 188—190

(ii) The Distribution of the Ratio of Estimates of the Two Variances in a Sample from a Normal Bi-variate Population. By D. J. FINNEY . . . . . 190—192

(iii) Gauss' Quadratic Formula with Twelve Ordinates. By B. DE F. BAYLY . . . . . 193—194

(iv) Review of J. V. Uspensky's *Introduction to Mathematical Probability* . . . . . 194—195

(v) Heterostylism in Natural Populations of the Primrose, *Primula acaulis*. By J. B. S. HALDANE . . 196—198

(vi) Karl Pearson's Lecture Notes on the Theory of Statistics. By G. U. YULE . . . . . 198—203

(vii) Review of W. Palin Elderton's *Frequency Curves and Correlation* . . . . . 203—204

(viii) A Correction to "A Generalization of Fisher's z Test". By D. N. LAWLEY . . . . . 467—469

(ix) Review of L. I. Dublin and A. J. Lotka's *Twenty-five Years of Health Progress*. With one Figure in the Text . . . . . 469—470

(x) Note on Professor Pitman's contribution to the theory of estimation. By E. S. PEARSON . . . 471—474

List of Plates and Folding Tables

A. M. Nussey: A Piebald Family

Plate I. Photographs of Two Boys with White Frontal Blaze *to face page* 65

G. M. Morant: A Description of Nine Human Skulls from Iran excavated by Sir Aurel Stein, K.C.I.E.

Plate I. Lateral Views of Nine Iranian Skulls . . . „ 132

Plate II. Facial Views of Six Iranian Skulls . . . . „ 132

Plate III. Vertical Views of Nine Iranian Skulls . . . „ 132

L. McMullen and E. S. Pearson: William Sealy Gosset, 1876–1937.

Plate I. Three Snapshots of William Sealy Gosset, 1936–1937 *to face page* 205
Plate II. Pages from Gosset's Notebook containing the Analysis of Haemacytometer Counts . . . „ 221
Plate III. Distribution of the Correlation Coefficient in Samples of 4, tabled in Gosset's Notebook . . . „ 225

J. Wunderly: The Cranial and other Skeletal Remains of Tasmanians in Collections in the Commonwealth of Australia.

Folding table of individual measurements of Tasmanian Skulls „ 336
Plate I. Three Aspects of a Typical Female Tasmanian Skull „ 340
Plate II. Lateral Views of two Typical Male Tasmanian Skulls „ 340
Plate III. Lateral Views of Two Typical Female Tasmanian Skulls . . . . . „ 340
Plate IV. Facial Views of Four Typical Tasmanian Skulls . „ 340
Plate V. Occipital Views of Four Typical Tasmanian Skulls „ 340
Plate VI. Male Skulls of presumed Tasmanian-Australian mixed-blood Origin . . . . . „ 340

Geoffrey Beall: Methods of Estimating the Population of Insects in a Field.

Folding table showing the distribution of beetles over the experimental field . . . . . „ 438
